

Product Features:

- Digital linear array scanning camera, with very high image separation rate and clarity.
- Complete imaging under the car, without any omissions, and the image is clear, complete, no distortion, can clearly observe the diameter of no less than 2mm objects.
- IP68 high protection grade, anti-pressure and seismic, suitable for use in any climate environment.
- Wireless data transmission function

Basic parameter indicators:

Scanning mode: linear scanning, infrared trigger
Maximum scan rate: 18kHz
Longitudinal resolution of car bottom image: 2048 pixels CCD
Image resolution: >12000×6000
Detection speed: 1-80km/h ≤30km/h
Data transfer: wireless
Field Angle: ≥ 178 degrees
Lighting component: single-body sealed LED surface light source, life: 50000h
Scanning direction: bidirectional
Load: 30T
System: Linux/Windows
Waterproof rating: IP68 for all-weather work
Ambient temperature: -20 degrees - +60 degrees
Scanner weight: 15.28kg
Scanning instrument size: L400*W340*H78mm
Working voltage: DC24V
System power supply: AC110-240V/50-60Hz
